About the Property

This spacious two-bedroom one full bath home offers wood flooring in the main areas and carpet in the bedrooms and tile in the bathroom. You are welcomed into the home through a covered front porch. The generous living room offers a gas fireplace, an open kitchen with stainless steel appliances, a large rear deck running the expanse of the house. The laundry utility room is huge. This was more than likely a third bedroom turned into laundry. There are two good sized bedrooms and a full bath with a claw foot tub. There is access to the deck from the rear bedroom. The rear yard is tree lined and private. There are a storage shed and a bonus hot tub being conveyed "as is".
