About the Property

There's something about a home near the shore that changes the pace of life. At 668 Crawford Rd, mornings begin a little slower. Maybe its the way the Southern exposure allow sunlight to stretch across the entire 1.5 acre property, filling the livingroom, dining room and kitchen throughout the day. Or how that same light carries out back, keeping the deck and yard warm and inviting from morning thru evening. Paired with the breeze drifting in from the nearby Delaware Bay, it's the kind of setting where coffee tastes better and plans for the day feel wide open. That might mean heading just a few miles down the road to the beaches of Cape May, or staying right where you are, surrounded by space, privacy and possibility. This home has worn many hats over the its history. A gathering place ...
