About the Property

Experience the tranquility of country living in this spacious home, privately set back 500 feet on 4 acres. The property's rear borders protected state land, offering lasting privacy and an undeveloped backdrop. Major system updates provide peace of mind, including a geothermal HVAC system (2022), new well pump (2021), and a new septic system, roof, PEX water lines, and tankless water heater - all completed in 2025, with supporting receipts and documentation available. Step out onto the expansive 20' x 44' Trex deck, perfect for entertaining, morning coffee, or simply taking in the peaceful surroundings. The large unfinished basement, with 10-foot ceilings, offers tremendous potential for additional living space, a recreation area, or home theater. It is protected by a French drain s ...
