About the Property

Coming Soon! Showings start 4/18/26. This ranch-style home was built with sturdy materials, located in a great neighborhood, and has 2 bedrooms, 1 full bath, an enclosed front porch, high ceilings, an enclosed back porch, and a large, spacious kitchen. There is also a full basement and a full walk-up attic that can be finished to add extra livable space. The roof and central air condenser are newer. The home sits up high on a fenced-in corner lot, and you also have a 1-car detached garage. This is a great home, well-maintained with a lot of potential. They don't build homes like this anymore. If you are interested in touring this home, call NOW to schedule your private showing.
