About the Property

Spacious home just waiting for your updates to make it yours! This home features a tile entry leading to the nicely sized living room. you can access the dining room from the living room and wrap around to the kitchen. There is a full bath on the first floor, as well as a den with wood burning fireplace. The main floor bedroom could also be an office if so desired. There is a porch off of the den. Upstairs you will find 3 bedrooms and a full bathroom. There is also storage in the front dormer. The full unfinished basement has both inside and outside entrance. The property is serviced by public water, but there is a septic system with an Advanced Treatment Unit (ATU) that requires a Management Agreement to be in place. This ATU was installed in 2019. Per the City of Bridgeton, Public Sewer ...
